The Rotary International Forum on the Future of International Organizations

We invite you to take part in the Rotary International Forum on the Future of International Organizations on March 13 and 14, 2026, at UNESCO House in Paris.

Hundreds of participants from some twenty different countries have already registered.

In a world in upheaval due to geopolitical, health, climate and social crises, international cooperation has never been so crucial... and so precarious.

Peace is not decreed: it is built through encounters, mutual understanding, and collective action.

This World Forum will bring together diplomats, institutional leaders, researchers, NGOs, young leaders, entrepreneurs and Rotarians from all over the world to reflect together on a central question: how can we reimagine multilateralism in the service of peace, health and education?

The discussions will focus on four themes: culture, peace and education with UNESCO; global health and crisis preparedness with WHO; youth and innovation with UNICEF; and the future of multilateralism and the challenge of legitimacy.

A day of debate, proposals and commitments, culminating in the presentation of a White Paper to the major international organizations.
